

The WTA Welcomes New Member Mr. Shrinkwrap!

Mr. Shrinkwrap is a leading distributor of shrink film, shrink wrapping supplies, and equipment. With over 25 years in business, they provide expert installation advice and high quality products. From their main warehouse in suburban Philadelphia and warehouses near Chicago and Los Angeles, they ship a variety of products daily. Their distribution network allows them to reach most US cities in three days or less by ground. They offer discounted pricing for business customers. They are expanding their distribution network worldwide and looking for distribution opportunities.

Mr. Shrinkwrap also specializes in providing [on-site packaging services](#) in a variety of commercial and industrial applications, including shrink wrapping and wooden packaging options for export. Operating out of a ten thousand square foot, ISPM 15 inspected and certified facility in Prospect Park, PA, they design and produce heat treated wood packaging

for export including custom shipping crates, pallets and skids. Extensive experience with combining wood packaging and shrink wrapping allows them to provide services for projects ranging from entire aircraft down to small pallet sized items for shipping or long term storage.
